“A Special Invitation”

“This course is excellent! I’ve had a huge boost in the number of implant cases and my confidence in treating these cases.”

“Excellent Course - Dr. Korb and staff are 1st class.”

“I absolutely feel more confident in my ability to treatment plan and restore implants.”

“Excellent presentation of material with which I was unfamiliar.”

“I feel like I now have a network of colleagues as well as Dr. Korb to help treatment plan for success.”

Dental Implant Mini~Residency Training Program

Hosted By Paul M. Korb, D.M.D., P.C.

“I’ve already seen an increase in profitability as a result of this program-even in the slow economy.”

“This course has been absolutely wonderful. Without it I would not be restoring so many implants.”

ATLANTA ATHLETIC CLUB

1930 Bobby Jones Drive
Johns Creek, GA 30097

Successful implant dentistry is the result of a team effort.

This mini-residency provides a comprehensive foundation in all aspects of implant dentistry to help you build that successful implant practice.

This mini-residency program focuses on diagnosis, treatment planning and the definitive restoration by following patients through the dental implant process during the course of the program.

By training the entire team, confidence and new skills are developed.

The clinician and staff understand how to identify the dental implant patient, treatment plan effectively and counsel patients on their options.

Dr. Paul M. Korb

Dr. Korb is a board certified Oral and Maxillofacial Surgeon. The focus of his practice is implant dentistry through comprehensive, top down treatment planning. He understands that successful outcomes depend on a team effort between the surgeon and restorative dentist. Ideal restorations require ideal implant positioning. Therefore, Dr. Korb's practice focuses on all ancillary procedures for ideal implant positioning, including bone grafting, socket preservation, ridge reconstruction, sinus lifts and nerve repositioning. Experience and success matter, Dr. Korb has placed thousands of implants with a 98% documented success rate. In addition, Dr. Korb has been awarded Platinum status by Biomet 3i for his contributions in the field of implant dentistry. He is a past 3i surgical teaching mentor, and a past 3i Surgical Advisory Board Member. His office is a Beta test site for new implant technologies. Dr. Korb also sits on the advisory board for the Institute for Dental Implant Awareness and lectures nationally on dental implant marketing and aesthetics.
